Web Developer

From Apr. 2025 to Jan. 2026 [DigitronCX](#) Karachi, SD, Pakistan

- Built responsive, components-based frontend interfaces using React.js and Tailwind CSS for booking platforms.
- Fetched and integrated third-party APIs, booking systems, and secure payment gateways to enhance application functionality.
- Troubleshoot and debugged web-based applications, coordinating closely with internal engineering teams for minor fixes.
- Worked directly under the guidance of the Team Manager and Lead Engineer to troubleshoot complex web-based applications.
- Coordinated cross-functionally with senior development teams to deploy fast technical updates and resolve critical bugs.
- Developed dynamic WordPress and Shopify structures using Liquid, Advanced Custom Fields (ACF), and optimized plugin configurations.
- Executed performance optimization techniques to lower site load times and improve overall technical SEO health.

Work experience

SMT Machine Technician

From Oct. 2024 to Mar. 2025 **Factor LED** Karachi, SD, Pakistan

- Monitored automated system operations to ensure maximum system availability and zero downtime during assigned shifts.
- Identified, logged, and diagnosed hardware/software machine errors, implementing timely preventive maintenance.
- Functioned under strict supervisor oversight during fast-paced shifts, monitoring continuous automated system health.
- Delivered regular technical performance reports directly to shift supervisors to optimize hardware operational efficiency.
- Maintained precise technical documentation, standard operating procedures (SOPs), and logs for structural reporting
- Handled component-level monitoring and trained staff in swift error detection and workflow optimization.

WordPress Developer (Intern)

From Jun. 2024 to Sept. 2024 **Silicon Power** Karachi, SD, Pakistan

- Assisted in complete WooCommerce setup, theme customization, and responsive website deployment.
- Assisted the Project Manager in executing full server-side configurations, hosting setups, and secure website migrations.
- Maintained high transparency by delivering daily progress logs directly to management.
- Managed server-side tasks including hosting setup, DNS configuration, and secure website migrations.
- Troubleshoot software glitches by debugging code, executing cross-browser testing, and managing SMTP configurations.
- Customized WordPress layouts using Elementor and implemented features through plugins.
- Assisted in debugging, cross-browser testing, and basic speed optimization.

Electronics & IT Support Engineer

From Dec. 2017 to May 2024 **Silicon Solar Science System** Karachi, SD, Pakistan

- Acted as first-level helpdesk support, installing, configuring, and troubleshooting software, desktops, and laptop bugs.
- Utilized structured ticketing concepts to diagnose and resolve hardware, system, and basic network (LAN/Wi-Fi) bottlenecks.
- Maintained precise IT inventory, asset logs, data backup protocols, and managed user accounts and access permissions.
- Designed multilayer PCBs using OrCAD/KiCad and programmed Arduino systems utilizing LCD and HMI interfaces
- Repaired PLC systems, inverter-based equipment, and assisted engineering teams on specialized naval electronics projects.
- Worked under the direct guidance of the CEO and Senior Project Managers to manage core technical assets and electronics deployment.
- Took independent ownership of product quality checks and aligned first-level helpdesk support protocols with overall organizational objectives.

Freelance

Web Developer - 05/2021

- Developed responsive WordPress business websites.
- Designed Shopify eCommerce stores.
- Customized Shopify themes using Liquid.
- Built landing pages using React.js and Next.js.
- Deployed projects on Netlify and Vercel.
- Integrated third-party APIs.
- Implemented SEO and speed optimization.
- Used AI development tools (Cursor AI, Windsurf, Bolt AI) to accelerate development.
- Built basic workflow automations using n8n.
- Delivered websites for local and international clients across business and eCommerce industries.
